ICCBR is the premier, annual meeting of the Case-Based Reasoning (CBR) community and the leading international conference on this topic. ICCBR-18 will be co-located and immediately before the 2018 IJCAI/ECAI Conference. This year we include a special track of the main conference on the intersection of CBR and analogical reasoning. The conference theme for 2018 is *The Future of CBR*. All accepted papers will be included in the conference proceedings published by Springer.
